"In the confusion of Democratic councils and of Democratic legislation, it is plain that the only wise course for the country to pursue is to restore the management of its afairs to that party which for thirty years has developed its resources, upheld its good faith, cared for those who fought for its integrity and guarded the rights fortunes of its citizens.

Mr. Morton discusses the tariff at some length and concludes his letter with a slight reference to the A. P. A. as follows: "Let us have the most enlarged education to teach us the yalue of our citizenship, and with jealous regard for that citizenship, let us welcome the liberty-loving

izenship, let us welcome the liberty-loving of all lands to the enjoyment of the largest liberty regulated by law.

"Under the constitution of the United States, as well as the organic law of this state, all citizens are placed on a footing of absolute equality before the law. This provision in the supreme law I fully recognize, not only because it is obligatory as a statute but because I am in favor of the fullest freedom in the worship of Alfullest freedom in the worship of Al-mighty God.
